## APPRECIATION

Sando's visit comes at a crucial time, as HEAL is currently fundraising to fence the property and renovate the building. A safe environment is essential for a child's development, so HEAL Inc. is thrilled to create an environment that is great for our children.

The visit concluded with a heartfelt exchange of gratitude between Sando, the children, and the staff.

MOCSA presented Sando with a traditional Liberia, African shirt as an appreciation for the support and work that he is doing via HEAL in Liberia.

He pledged that HEAL Inc. will do everything in its will to provide the support necessary for the children and staff to live a better life.

On behalf of HEAL,

I just want to say thank you to all our partners for your contribution and making our children safe again.
